A primary aim of in-service education is to assure that staff nurses demonstrate an understanding of this basic knowledge. Because of on-going research studies (since 1979), publications, and the use of the BKAT over the past 37 years, the BKATs have become accepted as one standard for measuring basic knowledge in various areas of critical care and medical-surgical nursing.

Critical care medicine is one of the fastest-growing areas of practice, and *Critical Care Study Guide, 1st ed.,* was the first reference to combine both concise text and reviews with questions. The second edition expands and improves coverage, including comprehensive studies in airway management, cardioversion and defibrillation, medical ethics, and the use of blood products. The unique combination of text with questions and answers makes this a crucial reference for all practitioners and residents who see patients in the Intensive Care Unit, and those planning to sit for medical boards.

This title delivers practical solutions to virtually any problem that may arise in running an emergency department or acute care center.

This book addresses intertextual connections between Lamentations and texts in each division of the Hebrew Bible, along with texts throughout history. Sources examined range from the Dead Sea Scrolls to modern Shoah literature, allowing the volume's impact to reach beyond Lamentations to each of the 'intertexts' the chapters address. By bringing together scholars with expertise on this diverse array of texts, the volume offers a wide range of exegetical insight. It also enables the reader to appreciate the varying intertextual approaches currently employed in Biblical Studies, ranging from abstract theory to rigid method. By applying these to a focused analysis of Lamentations, this book will facilitate greater insight on both Lamentations and current methodological research.
