From the Foreword by John J. Murphy "DeMark's work as a consultant has been restricted to large institutions and many of the legendary traders in the world today. By sharing his creative ideas with us, as well as his passion for precision and improvement, Tom DeMark's emphasis on the 'new science' of technical analysis helps push the technical frontier another step forward. With the unprecedented attention now being paid to technical analysis, this new book couldn't have come at a better time." --John J. Murphy, bestselling author of Technical Analysis of the Futures Markets and Intermarket Technical Analysis, and technical analyst for CNBC "This book is filled with innovative, creative, and clever new ideas on technical analysis. Tom DeMark has done a wonderful job of turning subjective techniques into objective strategies and tactics." --Courtney Smith President and CIO Pinnacle Capital Management, Inc. "Those who know him and his work call him the consummate technician--a trading system developer without peer." --Futures magazine "DeMark is the ultimate indicator and systems guy. No one touches him. I know the Holy Grail of trading systems doesn't exist because if it did, Tom would have found it by now." --James Bianco Director of Arbor Trading "Tom DeMark is a genuine leader who has been behind-the-scenes until now. Publishing DeMark is a coup." --Ralph Vince author of The Mathematics of Money Management

From the world's foremost authority on chart analysis-- a practical new treatise on mastering powerful trading tools and systems In the sequel to his best-selling book, The New Science of Technical Analysis, Tom DeMark refines the most popular and precise of his indicators with exacting new attention to real-time trading applications. "Only a fool learns from his own mistakes. The wise man learns from the mistakes of others. " - Otto von Bismarck This short book started when I asked a few friends what their worst investment was. What I did not expect was that each of them had such a vivid story to tell. Heck, even my 79-year-old mom responded with a very specific story. The truth is that in the world of finance we are always talking about our winners, about the story of our returns. But, we so rarely talk about failures. This is a book about investing failures. You may relate to one of these stories, or have lived one of them, but most importantly, I want you to learn from them.
