Yoga for Scuba Divers teaches you poses, breathing exercises, visualization methods, and yoga ethics that make you a better diver. By practicing the poses you can: enhance your finning techniques and underwater stability, build core power and abdominal control to fine-tune your buoyancy, and improve your balance and strength for walks on the shore in full gear. The breathing exercises teach you to breathe steadily during physical exertion, keeping you calm under water. All the yoga poses are practiced on land. Yoga for Scuba Divers includes visualizations to prepare you mentally for upcoming dives. Athletes use visualization to enhance performance; it's powerful for divers, too. You will also learn yoga principles, such as non-violence, and how they apply to divers. Todd Stedl is a PADI Open Water Scuba Instructor. Kimberlee Jensen Stedl is a Registered Yoga Teacher and an American Council on Exercise Faculty member. Together they have been diving and doing yoga since they met in 2002.

A Miami hit-and-run witness winds up as bait for drug smugglers—in an “explosive” novel cowritten by the New York Times–bestselling author of Bad Monkey (The Atlanta Journal-Constitution). Chris Meadows’s charmed life as an up-and-coming architect in Coconut Grove has kept him far removed from Miami’s bloody drug trade. But his comfortable existence comes crashing down around him when Chris witnesses the hit-and-run death of an ex-girlfriend by a car full of drug smuggling gangsters. Now caught up in southern Florida’s brutal underground cocaine war, Meadows is in a fight for his life—to evade not only the hit men seeking to silence him, but also the crooked Miami cops who would rather exploit than protect him. This is the very first suspense thriller written by the New York Times–bestselling author of Razor Girl and Sick Puppy and Bill Montalbano, a writing team praised for its “fine flair for characters and settings” (Library Journal). Those who enjoy Hiaasen’s other Florida thrillers, the Doc Ford novels by Randy Wayne White, or Netflix’s Narcos will want to discover these early crime fiction gems.

"This is the story of some of the brave, brilliant and often balmy men that invented diving. It is the story of explosive tempers and exploding teeth, of how to juggle live hand grenades and steer a giant rubber octopus. A series of vivid portraits reveal the eccentric exploits of these pioneers. They include Guy who held a world altitude record when only sixteen, wrote a film for Humphrey Bogart, invented snorkelling and loved his wife enough to shoot her. Roy wore a bucket over his head and stole a coral reef. Bill wearied of fishing with dynamite and wrestling deadly snakes, so he sealed himself in a metal coffin to dangle half a mile beneath the ocean. Cameron, testing the bouncing bomb for dam busters, made a plastic ear for a dog, a false tesicle for a stallion and invented a mantrap disguised as a lavatory. He ascended from a depth of 200 feet without breathing equipment to see if his lungs would burst, then studied the effects of underwater explosions by standing closer and closer until shattered by the blast. The book also traces the evolution from spear fishermen to conversationalists, from treasure hunters to archaeologists, from photographers to philosophers. The sea is
