everyone." --Joshua A. Fishman, research professor of social sciences, Yeshiva University, New York "Professor De Francis has produced a work of great effectiveness that should appeal to a wide-ranging audience. It is at once instructive and entertaining. While being delighted by the flair of his novel approach, the reader will also be led to ponder on some of the most fundamental problems concerning the relations between written languages and spoken languages. Specifically, he will be served a variety of information on the languages of East Asia, not as dry pedantic facts, but as appealing tidbits that whet the intellectual appetite. The expert will find much to reflect on in this book, for Professor DeFrancis takes nothing for granted." --William S.Y. Wang, professor of linguistics, University of California at Berkeley

No ordinary dictionary, David Crystal's Dictionary of Language includes not only descriptions of hundreds of languages literally from A to Z (Abkhaz to Zyryan) and definitions of literary and grammatical concepts, but also explanations of terms used in linguistics, language teaching, and speech pathology. If you are wondering how many people speak Macedonian, Malay, or Makua, or if you're curious about various theories of the origins of language, or if you were always unsure of the difference between structuralism, semiotics, and sociolinguistics, this superbly authoritative dictionary will answer all of your questions and hundred of others.

Relates to Kotabowa village, Moneragela District of Sri Lanka.

This book delves into the Chinese literary translation landscape over the last century, spanning critical historical periods such as the Cultural Revolution in the greater China region. Contributors from all around the world approach this theme from various angles, providing an overview of translation phenomena at key historical moments, identifying the trends of translation and publication, uncovering the translation history of important works, elucidating the relationship between translators and other agents, articulating the interaction between texts and readers and disclosing the nature of literary migration from Chinese into English. This volume aims at benefiting both academics of translation studies from a dominantly Anglophone culture and researchers in the greater China region. Chinese scholars of translation studies will not only be able to cite this as a reference book, but will be able to discover contrasts, confluence and communication between academics across the globe, which will stimulate, inspire and transform discussions in this field.

Sri Lanka Language , 25 cm.

Offers definitions for English words and phrases, along with observations about the evolution of the dictionary since its first edition and tables that contain information for such topics as countries and chemical elements.

From full-text article databases to digitized collections of primary source materials, newly emerging electronic resources have radically impacted how research in the humanities is conducted and discovered. This book, covering high-quality, up-to-date electronic resources for the humanities, is an easy-to-use annotated guide for the librarian, student, and scholar alike. It covers online databases, indexes, archives, and many other critical tools in key humanities disciplines including philosophy, religion, languages and literature, and performing and visual arts. Succinct overviews of key emerging trends in electronic resources accompany each chapter. The only reference guide to electronic resources written specifically for the humanities. Addresses all major humanities disciplines in one convenient guide. Concise format ideal for students, librarians, and humanities researchers.
