RNA and Protein Synthesis is a compendium of articles dealing with the assay, characterization, isolation, or purification of various organelles, enzymes, nucleic acids, translational factors, and other components or reactions involved in protein synthesis. One paper describes the preparatory scale methods for the reversed-phase chromatography systems for transfer ribonucleic acids. Another paper discusses the determination of adenosine- and aminoacyl adenosine-terminated sRNA chains by ion-exclusion chromatography. One paper notes that the problems involved in preparing acetylaminoacyl-tRNA are similar to those found in peptidyl-tRNA synthesis, in particular, to the lability of the ester bond between the amino acid and the tRNA. Another paper explains a new method that will attach fluorescent dyes to cytidine residues in tRNA; it also notes the possible use of N-hydroxysuccinimide esters of dansylglycine and N-methylantranilic acid in the described method. One paper explains the use of membrane filtration in the determination of apparent association constants for ribosomal protein-RNS complex formation. This collection is valuable to bio-chemists, cellular biologists, micro-biologists, developmental biologists, and investigators working with enzymes.

Evolution presents foundational concepts through a contemporary framework of population genetics and phylogenetics that is enriched by current research and stunning art. In every chapter, new critical thinking questions and expanded end-of-chapter problems emphasizing data interpretation reinforce the Second Edition 's focus on helping students think like evolutionary biologists.

Soon to be a major television event, the nail-biting climax of one of the greatest political battles in American history: the ratification of the constitutional amendment that granted women the right to vote. "Both a page-turning drama and an inspiration for every reader" -- Hillary Rodham Clinton Nashville, August 1920. Thirty-five states have ratified the Nineteenth Amendment, twelve have rejected or refused to vote, and one last state is needed. It all comes down to Tennessee, the moment of truth for the suffragists, after a seven-decade crusade. The opposing forces include politicians with careers at stake, liquor companies, railroad magnates, and a lot of racists who don't want black women voting. And then there are the "Antis"--women who oppose their own enfranchisement, fearing suffrage will bring about the moral collapse of the nation. They all converge in a boiling hot summer for a vicious face-off replete with dirty tricks, betrayals and bribes, bigotry, Jack Daniel's, and the Bible. Following a handful of remarkable women who led their respective forces into battle, along with appearances by Woodrow Wilson, Warren Harding, Frederick Douglass, and Eleanor Roosevelt, The Woman's Hour is an inspiring story of activists winning their own freedom in one of the last campaigns forged in the shadow of the Civil War, and the beginning of the great twentieth-century battles for civil rights.

A Speaker 's Guidebook is the best resource in the classroom, on the job, and in the community. Praised for connecting with students who use and keep it year after year, this tabbed, comb-bound text covers all the topics typically taught in the introductory course and is the easiest-to-use public speaking text available. In every edition, hundreds of instructors have helped us focus on the fundamental challenges of the public speaking classroom. Improving on this tradition, the fifth edition does even more to address these challenges with stronger coverage of overcoming speech anxiety, organizing and outlining, and more. And as the realities of public speaking change, so does A Speaker 's Guidebook; the new edition also focuses on presentational speaking in a digital world — from finding credible sources online to delivering presentations in a variety of mediated formats. Read the preface.

Updated in its 13th edition, Joseph Devito's The Interpersonal Communication Book provides a highly interactive presentation of the theory, research, and skills of interpersonal communication with integrated discussions of diversity, ethics, workplace issues, face-to-face and computer-mediated communication and a new focus on the concept of choice in communication. This thirteenth edition presents a comprehensive view of the theory and research in interpersonal communication and, at the same time, guides readers to improve a wide range of interpersonal skills. The text emphasizes how to choose among those skills and make effective communication choices in a variety of personal, social, and workplace relationships

Transform your students into smart, savvy consumers of the media. Mass Communication: Living in a Media World (Ralph E. Hanson) provides students with comprehensive yet concise coverage of all aspects of mass media, along with insightful analysis, robust pedagogy, and fun, conversational writing. In every chapter of this bestselling text, students will explore the latest developments and current events that are rapidly changing the media landscape. This newly revised Sixth Edition is packed with contemporary examples, engaging infographics, and compelling stories about the ways mass media shape our lives. From start to finish, students will learn the media literacy principles and critical thinking skills they need to become savvy media consumers.

As the study of followership further escalates into the global mainstream of leadership studies, this book proactively engages future leaders and followers in

issues that they are likely to face in various everyday human resource development, management, and leadership contexts.

Development is best understood as a fusion of biological, social, and psychological processes interacting in the unique medium of human culture. [In this text, the authors] have tried to show not only the role of each of these factors considered separately but also how they interact in diverse cultural contexts to create whole, unique human beings.-Pref.
