Explain the reasons for the collapse of Reconstruction. Describe the efforts of white southern "redeemers" to roll back the gains of Reconstruction. The effort to remake the South generated a brutal reaction among southern whites, who were committed to keeping blacks in a subservient position. To prevent blacks from gaining economic ground and to maintain cheap labor for the agricultural economy, an exploitative system of sharecropping spread throughout the South.

This book examines how statesmanship in reconstruction could have spared the South some severe hardships after the Civil War. Despite the vast change in public opinion on race relations over the last nearly 150 years, there are still lessons drawn from this study that can be applied to present day Civil Rights Policy.

Describes the changes brought about by the Civil War, discusses the impact of slavery's end, and looks at the political, economic, and social aspects of Reconstruction.

Gale Researcher Guide for: Overview of the South from Reconstruction to Jim Crow is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

Between the era of America's landmark antebellum compromises and that of the Compromise of 1877, a war had intervened, destroying the integrity of the Southern system but failing to determine the New South's relation to the Union. While it did not restore the old order in the South, or restore the South to parity with the Union, it did lay down the political foundations for reunion, bring Reconstruction to an end, and shape the future of four million freedmen. Originally published in 1951, this classic work by one of America's foremost experts on Southern history presents an important new interpretation of the Compromise, forcing historians to revise previous attitudes towards the Reconstruction period, the history of the Republican party, and the realignment of forces that fought the Civil War. Because much of the negotiating occurred in secrecy, historians have known less about this Compromise than others before it. Now reissued with a new introduction by Woodward, Reunion and Reaction gives us the other half of the story.

"Stony the Road presents a bracing alternative to Trump-era white nationalism. . . . In our current politics we recognize African-American history—the spot under our country's rug where the terrorism and injustices of white supremacy are habitually swept. Stony the Road lifts the rug." —Neil Irvin Painter, New York Times Book Review A profound new rendering of the struggle by African-Americans for equality after the Civil War and the violent counter-revolution that resubjugated them, by the bestselling author of The Black Church. The abolition of slavery in the aftermath of the Civil War is a familiar story, as is the civil rights revolution that transformed the nation after World War II. But the century in between remains a mystery: if emancipation sparked "a new birth of freedom" in Lincoln's America, why was it necessary to march in Martin Luther King, Jr.'s America? In this new book, Henry Louis Gates, Jr., one of our leading chroniclers of the African-American experience, seeks to answer that question in a history that moves from the Reconstruction Era to the "nadir" of the African-American experience under Jim Crow, through to World War I and the Harlem Renaissance. Through his close reading of the visual culture of this tragic era, Gates reveals the many faces of Jim Crow and how, together, they reinforced a stark color line between white and black Americans. Bringing a lifetime of wisdom to bear as a scholar, filmmaker, and public intellectual, Gates uncovers the roots of structural racism in our own time, while showing how African Americans after slavery combated it by articulating a vision of a "New Negro" to force the nation to recognize their humanity and unique contributions to America as it hurtled toward the modern age. The story Gates tells begins with great hope, with the Emancipation Proclamation, Union victory, and the liberation of nearly 4 million enslaved African-Americans. Until 1877, the federal government, goaded by the activism of Frederick Douglass and many others, tried at various turns to sustain their new rights. But the terror unleashed by white paramilitary groups in the former Confederacy, combined with deteriorating economic conditions and a loss of Northern will, restored "home rule" to the South. The retreat from Reconstruction was followed by one of the most violent periods in our history, with thousands of black people murdered or lynched and many more afflicted by the degrading impositions of Jim Crow segregation. An essential tour through one of America's fundamental historical tragedies, Stony the Road is also a story of heroic resistance, as figures such as W. E. B. Du Bois and Ida B. Wells fought to create a counter-narrative, and culture, inside the lion's mouth. As sobering as this tale is, it also has within it the inspiration that comes with encountering the hopes our ancestors advanced against the longest odds.

Reconstruction: A Concise History' is a gracefully-written interpretation of Reconstruction as a spirited struggle to re-integrate the defeated Southern Confederacy into the American Union after the Civil War, to bring African Americans into the political mainstream of American life, and to recreate the Southern economy after a Northern, free-labor model.

Although some statesmen and historians have pinned Austria's—and the world's—interwar economic implosion on financial colonialism, in this corrective history Nathan Marcus deemphasizes the negative role of external players and points to the greater impact of domestic malfeasance and predatory speculation on Austrian political and financial decline.

NEW YORK TIMES BESTSELLER • "Comprehensive, enlightening, and terrifyingly timely."—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump's presidency has raised a question that many of us never thought we'd be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for How Democracies Die "What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that."—The Washington Post "Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics."—Ezra Klein, Vox "If you only read one book for the rest of the year, read How Democracies Die. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest."—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) "A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal."—Fareed Zakaria, CNN
