Period 4: 1800-1848 ~~Historical Dictionary Of The Federal~~

historical usage of federal. English federal comes from the Latin noun foedus (stem foeder-) “a formal agreement between states, peoples, or private persons, a league, treaty (of alliance or peace), a marriage compact.”. Foedus is related to the Latin verb f?dere “to trust, trust in, have confidence in,” the adjective f?dus “faithful loyal” (Abraham Lincoln owned a dog named Fido), and the noun fid?s “trust, state of being trusted.”.

~~Federalism | Definition of Federalism at Dictionary.com~~

A federal government is a system of government that divides the power between a larger central government, and the local and regional governments beneath it. In the United States, the federal government's powers were established by the Constitution. Perfect examples of federal governments are those that function best in large countries with a broad diversity among its citizens, though where a common culture still exists, which ties everyone together.

While the United States has had some kind of intelligence capability throughout its history, its intelligence apparatus is young, dating only to the period immediately after World War II. Yet, in that short a time, it has undergone enormous changes—from the labor-intensive espionage and covert action establishment of the 1950s to a modern enterprise that relies heavily on electronic data, technology, satellites, airborne collection platforms, and unmanned aerial vehicles, to name a few. This second edition covers the history of United States intelligence, and includes several key features: Chronology
