Remarkable change is the new reality of International Business. The accelerating cross-border flow of products, services, capital, ideas, technology and people are driving businesses--large and small--to internationalise. International Business 1st Australasian edition: the New Realities is a rigorous resource which motivates and prepares future managers to operate in multi-national settings, by delivering a teaching system that works. Based on the authors' collective teaching and working experience—as well as discussions with practitioners, students, and faculty staff—this is a complete teaching and learning system where cases, exercises and management skill builders are seamlessly integrated and matched to the topics in each chapter. Case studies from a wide variety of markets relevant to Australasian businesses, including ASEAN countries (e.g. Singapore, Malaysia, Indonesia) as well as China, India, Japan, South Korea, Pakistan, Europe and the Middle East, provide a real-world perspective to theories and examine the latest trends in international business. For undergraduate students majoring in international business or post-graduate courses in international business.

This book focuses on understanding and managing organizational behavior in an international context, considering the conceptual framework of culture and offering practical advice for navigating cultures in the workplace. Readers will gain new tools to interpret behavior, helping them to manage international challenges effectively. The authors outline the critical management and adaptation skills necessary to develop within a globalized organization, teaching the reader how to recruit, coordinate, and evaluate an international team. Updated "Culture Clash" and "Global Innovations" boxes provide important insights into identifying a core set of values to "customize" management techniques across cultures, focusing particularly on growing countries like India and China. The new edition features a more streamlined chapter structure, updated discussion questions, and new end-of-chapter cases with self-scoring quizzes for further development. International Organizational Behavior will prove a valuable resource for any student of organizational behavior, international management, and international business. This book, a best-seller in its first edition, uses cultural metaphors to help students and managers understand, describe, and compare national cultures. In addition to expanding the number of countries covered, the author introduces new conceptual frameworks for classifying cultures based on the works of Triandis, Fiske, and Huntington. These frameworks support students as they develop an increased awareness of various cultures and begin the challenging process of integrating cultural and economic perspectives.

This third edition prepares entrepreneurs for the rewards and pitfalls of this career choice. It explores a new theme on how to effectively manage a start-up company. Focus on Real Entrepreneurs sections highlight how entrepreneurs position their companies to meet the various marketing, financial, and technological challenges. Management Track sections present key management issues while following the development of a real company. Entrepreneurs will also find real situations and examples on which they can practice the broad range of skills required to start and build a company in today's complex world.

Traditionally, international business (IB) texts survey the field from a USA perspective, going on to compare the USA to the rest of the business world. This text addresses IB from a purely multinational perspective. International Business is examined from the USA angle, going on to address IB issues from other countries' perspectives, what we call the "Reverse Perspective." The authors interview business executives and politicians from a number of countries including the USA, Canada, Mexico, Brazil, Colombia, Argentina, India, Hong Kong, Taiwan, China, Japan, South Korea, Germany, Italy, and Russia. These interviews are incorporated at appropriate points in the text providing first-hand information and practical insight. Cases include: Air Arabia, Gap, Diebold Inc, Matsushita, AMSUPP, NIKE, China Eastern Airlines, Luton & Dunstable Hospital, Harley Davidson, Cassis de Dijon, Green investments in Belize, Chicago Food and Beverage Company, Advanced Software Analytics
