One of the most significant books to have been written by a New Zealand business leader. Phillip Mills, the Ernst and Young Entrepreneur of the Year and a global exporter of fitness programmes to 71 countries, has spent the last year forming his views on health and fitness and sustainability into an engaging and challenging book, *Fighting Globesity*. All New Zealanders should read it. As Phillip jokes, "What would a couple of gym bunnies know about climate change and sustainability?" As it turns out, rather a lot. Phillip has done wide reading and research in this area over the last few years. From that he has distilled a carefully argued message: we need to get fit and stay fit, we need to consume fewer resources, we need to urgently engage with health and climate change issues - and we can make a difference. In this he may well be a step ahead of many other business thinkers. Accompanied by exercise and training programmes, nutritional information, recipes and more, *FIGHTING GLOBESITY* is a perfect health, fitness and philosophy package. *FIGHTING GLOBESITY* - A Practical Guide To Personal Health And Global Sustainability combines the Mill's experience to create a cutting-edge lifestyle prescription which will be sustainable for both the individual and the planet.

Adulting is hard! But [👉]kidulting[👉] engaging in nostalgic childhood activities to relieve stress, like playing with your old favorite toys, participating in games and activities from your youth, and even snacking on the foods you enjoyed as a kid! isn't. Let this book be your guide to indulging your inner child. [👉]Kidulting[👉] is a thing, and it's growing! Especially popular among millennials, the term [👉]kidulting[👉] refers to engaging in activities from your childhood, sometimes with a grown-up twist. Psychology Today points out that playing like a kid helps you look at the world with fresh eyes/[👉]beginner's mind[👉]which allows you to slow down and focus. The *Kidult Handbook* is a fun and informative guide to healthy escapism through play. Much like adult coloring books, kidulting is a way of focusing your mind on something fun and creative to relieve stress. But this book goes way beyond just coloring![👉]it includes 160 ideas for fun, from timeless classics like building blanket and pillow forts, to generation-specific ideas, from millennials to boomers. Interspersed throughout are fun facts and trivia about games through the ages. Most activities are unplugged and screen-free, and range from solitary pursuits to ones you can share with a friend or two. Feeling young again has never been so easy!

The smell of hope is burning flesh! The howlers are eating each other. What is left of humanity has a chance to breathe at last. Each group that forms has to consider how they will begin anew. They must come together on how to take care of the remaining monsters, grow food, teach kids, and deal with their dead/[👉]or fall apart in the pitted wasteland left to them by the zombie apocalypse. Can humanity get it right this time? Or will the last human become 'The Last Zombie'?

Explains the practical aspects of exercise physiology and modern coaching, including energy systems, the aerobic and anaerobic thresholds, VO2 max, running economy, muscle fibers, and more. In addition, it covers how these ideas should inform both your day-to-day workouts and the underlying philosophy that forms the foundation of your training program.

40 DAYS TO FREEDOM leads the reader through an expertly guided transformational process to break the cycle of food craving, diet cycling & body shaming, once and for all. Using Neuro-Linguistic Programming (NLP), we will teach you how to overcome compulsions and bad habits, and to release limiting beliefs and emotional connections to food. By implementing the steps found in this book you will re-program the way you think and feel about your body and install positive and supportive habits that keep you accountable and progressing toward your goals. With your newfound knowledge and motivation you will become equipped and empowered to create lasting results. As a conscious health consumer, does the vast amount of information available online, in bookstores, from health professionals and peers only leave you feeling overwhelmed and unsure of whom to trust, and what to implement? Do you encounter conflicting and confusing information seemingly at every turn, leaving you with more questions than answers? Have you come to realize that having the best intentions or strong "willpower" to gain control over your eating habits isn't enough to thrust you out of an addictive cycle? Perhaps you've perceived to have some success with a particular diet, only to find yourself rebound back to the same or worse condition over time - now weighted with the compounded effects of exasperation, desperation and despair guiding your choices. You may be a new recipient of a concerning medical diagnosis, a parent seeking healthful alternatives to the standard school lunch fare or convenience dinner foods, or an athlete seeking a competitive advantage...and you are all left with the same question: How do I break free from the rut or routine where I seem to be trapped? As you sift through mountains of literature on the latest fad diet or scientific study, as you consider and sometimes succumb to gimmicky "shortcuts" and home machines that are "guaranteed" to deliver gleaming health - you grow sicker, fatter and more frustrated. There is no diet, no exclusive or restrictive pattern that ever works for humans long-term. It is hardwired into our being to break out of these patterns. That is why most attempts for us to simply "willpower our way there" end in misery, disappointment and even do damage to our metabolisms. There is not one definition of freedom that is the right answer for everyone. We are all unique biochemical beings, with distinct physical and emotional differences. We cannot expect to experience the same results of another's experimentation toward better health, nor can we rely on lab research that does not translate into the human experience, and its diverse population. Our unique expression of humanness and our perception of well-being is a complex and savory stew of our internal representations of what it means to be healthy as well as distinctly measurable external variables. We have different ancestries, different metabolic types, different health histories and different health goals. So what can be taught in one book that could serve the health of the masses? Keep reading, you'll soon know.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. [👉]From the time Man first crawled upon this earth[👉]we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees.[👉] And when the time comes, will Draig be willing to lay down his life for the sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

AN INTERACTIVE EXPERIENCE CHILDREN WILL NOT FORGET! Word Queen Book Two features three stories: digraphs (th, sh, ch, tch, wh, ph, gh), QU, and oo, ou, ow, ue, ui, ew. The Word Queen is a mysteriously, irresistible character that ingrains the endless rules of decoding the English language into the minds of children. This exciting reading program, created by a National Board Certified teacher, instills the ability to read into kindergarten thru second grade students. Since only about 10% of text can be decoded using the basic 26 letter sounds of the alphabet, this is a much needed program in education today. It is easily implemented and designed to accommodate the time constraints of teachers. The Word Queen engages children holistically through real life interactions and creates an enthusiasm and eagerness to learn! Teachers say: "The kids are so excited, they don't even realize they are learning!"
