Thirty-five lively and literate profiles by contributing scholars analyze major writers of this literary genre or writers known for a major work in the genre, and Connery provides short pieces for nineteen additional figures. The volume introduction discusses definitions and characteristics of literary journalism, with reference to the patterns of reality depicted. Connery also provides the results of his research--newly-founded primary sources of literary journalism.

"Next Wave collects the work of today's finest young writers--nineteen creative reporters whose work builds upon foundations laid by previous generations. Although naysayers predicted the decline of quality long-form journalism with the rise of the Internet, Next Wave is evidence that the genre is thriving--aided by the very medium that was initially portrayed as the executioner. Next Wave is fascinating and beautiful reading for enthusiasts and students of vibrant, you-are-there, literary non-fiction. Each chapter includes a photo, a bio, a personal essay, and an outstanding magazine or newspaper story from a different up-and-coming writer. Compiled by two award-winning literary journalists/educators from the last generation, Next Wave is a celebration of today's greatest writing and a roadmap for aspiring practitioners of tomorrow, a joyful reminder that literary journalism alive and well, and that artful craftsmanship will never go out of fashion."--Publisher's website.

The [dazzling] and essential portrayal of 1960s America from the author of South and West and The Year of Magical Thinking (The New York Times). Capturing the tumultuous landscape of the United States, and in particular California, during a pivotal era of social change, the first work of nonfiction from one of American literature's most distinctive prose stylists is a modern classic. In twenty razor-sharp essays that redefined the art of journalism, National Book Award-winning author Joan Didion reports on a society gripped by a deep generational divide, from the 'misplaced children' dropping acid in San Francisco's Haight-Ashbury district to Hollywood legend John Wayne filming his first picture after a bout with cancer. She paints indelible portraits of reclusive billionaire Howard Hughes and folk singer Joan Baez, [a personality before she was entirely a person.] and takes readers on eye-opening journeys to Death Valley, Hawaii, and Las Vegas, [the most extreme and allegorical of American settlements.] First published in 1968, Slouching Towards Bethlehem has been heralded by the New York Times Book Review as [a rare display of some of the best prose written today in this country] and named to Time magazine's list of the one hundred best and most influential nonfiction books. It is the definitive account of a terrifying and transformative decade in American history whose discordant reverberations continue to sound a half-century later.

In this volume, Doug Underwood asks whether much of what is now called literary journalism is, in fact, 'literary,' and whether it should rank with the great novels by such journalist-literary figures as Twain, Cather, and Hemingway, who believed that fiction was the better place for a realistic writer to express the important truths of life.
