I figli di Hurin è l'unica (insieme a La storia di Kullervo) tragedia tolkeniana. Ovviamente bisogna essere appassionati dell'universo creato da Tolkien (ma se leggi Tolkien lo sei solitamente) perché il libro parla di un'epoca passata in cui si muovono dei personaggi interessanti e ben dipinti dall'abile mano dello scrittore I figli di Húrin, Libro di John R. R. Tolkien. Spedizione ...

Permaculture is more than just the latest buzzword; it offers positive solutions for many of the environmental and social challenges confronting us. And nowhere are those remedies more needed and desired than in our cities. The Permaculture City provides a new way of thinking about urban living, with practical examples for creating abundant food, energy security, close-knit communities, local and meaningful livelihoods, and sustainable policies in our cities and towns. The same nature-based approach that works so beautifully for growing food—connecting the pieces of the landscape together in harmonious ways—applies perfectly to many of our other needs. Toby Hemenway, one of the leading practitioners and teachers of permaculture design, illuminates a new way forward through examples of edge-pushing innovations, along with a deeply holistic conceptual framework for our cities, towns, and suburbs. The Permaculture City begins in the garden but takes what we have learned there and applies it to a much broader range of human experience; we're not just gardening plants but people, neighborhoods, and even cultures. Hemenway lays out how permaculture design can help town dwellers solve the challenges of meeting our needs for food, water, shelter, energy, community, and livelihood in sustainable, resilient ways. Readers will find new information on designing the urban home garden and strategies for gardening in community, rethinking our water and energy systems, learning the difference between a "job" and a "livelihood," and the importance of placemaking and an empowered community. This important book documents the rise of a new sophistication, depth, and diversity in the approaches and thinking of permaculture designers and practitioners. Understanding nature can do more than improve how we grow, make, or consume things; it can also teach us how to cooperate, make decisions, and arrive at good solutions.

Julian Budden provides a look at the process of putting an opera together, the cut-and-slash of nineteenth-century Italian opera, the struggle to find the right performers for the debut of *La Bohème*, Puccini's anxiety about completing *Turandot* (he in fact died of cancer before he did so), and his animosity toward his rival Leoncavallo (whom he called Leonasino or "lion-ass"). Budden provides an analysis of the operas themselves, examining the music act by act. He highlights, among other things, the influence of Wagner on Puccini—alone among his Italian contemporaries, Puccini followed Wagner's example in bringing the motif into the forefront of his narrative, sometimes voicing the singer's unexpressed thoughts, sometimes sending out a signal to the audience of which the character is unaware. And Budden also paints a portrait of Puccini the man—talented but modest, a man who had friends from every walk of life: shopkeepers, priests, wealthy landowners, fellow artists. --From publisher's description.

NEW EDITION COMING AUGUST 2021 What do avocados, apples, mangos and tomatoes have in common? The answer is that they can all be grown at home, for free, from pips that you would otherwise throw into the recycling bin. *RHS Plants from Pips* shows you how to grow a range of fruit and vegetables, indoors and out, with minimum equipment and experience. This complete guide covers everything from the science of how plants grow to how to deal with pests and other problems. Find out what to grow, what to grow it in and when and where to grow it for the best results. Packed with colourful photographs and step-by-step illustrations, this is the perfect way to introduce beginners of all ages, from 6 to 60, to the joys of watching things grow.

Raised with limited peer interaction, Ernestine St Bennett has difficulty interpreting social cues. At twenty-five she's become a loner; a shy nerd immersed in her scientific studies, whose best friend is her

pet fish, Waldo. Then Ernestine meets Simon Prime, who's obviously a nerd, too! Sympathizing with his social dysfunction, Ernie decides to help poor Simon increase his self-esteem and thus enhance his social standing. Using principles learned in her fish studies, she'll simply turn Simon from meek to macho. What Ernestine doesn't know (but Waldo suspects) is that Simon Prime is really ex-cop, private investigator Sam Pierce in disguise. A man who definitely doesn't need his masculinity enhanced!

This oversized lift-the-flap board book of a child's first 101 words has big, clearly labeled photos of objects in a baby and toddler's world with an interactive puzzle activity on each spread. Identifying words and their meanings is an important foundational step in language development for babies and toddlers, and Highlights brings Fun with a Purpose® into this essential learning. Babies will love looking at and naming the photos in this sturdy book, while toddlers and parents will enjoy the lift-the-flap questions and answers that help them find the cute red bird hidden on each spread.
