This indispensable guide will appeal if you are a financial or non-financial manager, in a small or medium sized enterprise, an established entrepreneur or if you are setting up your own business for the first time. It covers day to day financial concerns of a business in a practical commonsense way.

Islam's tense relationship with modernity is one of the most crucial issues of our time. Within Islamic legal systems, with their traditional preference for eyewitness testimony, this struggle has played a significant role in attitudes toward expert witnesses. Utilizing a uniquely comparative approach, Ron Shaham here examines the evolution of the role of such witnesses in a number of Arab countries from the premodern period to the present. Shaham begins with a history of expert testimony in medieval Islamic culture, analyzing the different roles played by male experts, especially physicians and architects, and females, particularly midwives. From there, he focuses on the case of Egypt, tracing the country's reform of its traditional legal system along European lines beginning in the late nineteenth century. Returning to a broader perspective, Shaham draws on a variety of legal and historical sources to place the phenomenon of expert testimony in cultural context. A truly comprehensive resource, *The Expert Witness in Islamic Courts* will be sought out by a broad spectrum of scholars working in history, religion, gender studies, and law.

Federico Suarez here explores the Annunciation, the Visitation, the Presentation in the Temple, Mary's hidden life, the wedding at Cana, and Mary's sorrows at the Cross. He does so to show that the Blessed Mother is not just to be admired, but to be imitated by every Christian. Suarez pays particular attention to the concept of vocation in Mary's life, depicting her as the supreme example of one who strove for holiness in every condition in which she found herself. This book helps you do likewise.
