Think of food as energy to charge up your battery for the day. Throughout the day, you use energy from the battery to think and move, so you need to eat and drink to stay powered up. Balancing the energy you take in through food and beverages with the energy you use for growth, activity, and daily living is called "energy balance."

women to men in the C-suite – in even the most developed economies – is dismally low.

Three questions to help you take charge of your ascent to ...

Stress is a normal part of life. The body's stress responses are your first line of defense in life-threatening situations, and many of the effects of stress—such as increased alertness, resiliency, and adaptation—are positive and have allowed our species to survive and evolve over time. However, prolonged stress is another story.

Unlock your product management potential and achieve breakthrough performance for your products and company! If you're looking for an effective and proven approach to product management – one that recognizes that the majority of product managers enter the field with little or no training and must learn through trial and error – this is the book for you. *Take Charge Product Management* guides you step-by-step along the product management path with tips, tactics, and tools to make you and your products more successful. Whether you're a new or experienced product manager, or a seasoned executive leading a team of product managers, this hands-on guide arms you with best practices to optimize your time and effectiveness and increase your value. Learn how to:

- Understand what's expected of you at each stage of your company's growth
- Add value to your organization by understanding your executives' expectations
- Evaluate the range of product management approaches available
- Gather the mission-critical information you need to succeed
- Develop an effective vision for your offering
- Align your organization behind your product decisions
- Form cross-functional teams and synchronize with the development team
- Shift from reactive to proactive product management
- Document your results

TODAY IS THE DAY, TAKE CHARGE OF YOUR TEAM! Team management is important, but it isn't about being important. It's about being there for your team members when they need you and overseeing the project from a managerial point of view. That means that you need to have a lot of skills including the ones shown in this book. Your team can only be as effective as you are. There is nowhere to throw blame when you are a team manager because the buck rests with you. However, when you do succeed as a team manager or leader, what you find is that your team members will follow your lead. The idea behind writing this book was to use my experience to help those starting out and to be able to give useful and sound advice. There are many corporate style books on leadership. What makes mine different is that it's written by someone who has been where you are currently standing, and who understands your difficulty with being faced with the job of team leader. Walk through the pages and learn how it's done.

Jumpstart your own career changes; discover your **VIEW**, the new skills for creating the work and life you love. A six-week journey packed with practical advice, it's like having a personal coach.

The authors offer those with Bipolar Disorder a four-step plan towards managing the illness and creating lasting stability.

The world of work is changing dramatically and jobs for life have become a thing of the past. Even people moving up the corporate ladder are questioning their choices and considering new possibilities, such as work/life balance or portfolio working. If you want to take charge of your career but don't know

where to start, change can feel unobtainable - a pipe dream. This action-oriented and pragmatic book will help you overcome the barriers to deciding on a career and changing career, giving you a proven roadmap to achieve your goals. Taking Charge of Your Career will lead you step-by-step through the process of building your career strategy and making it happen. Full of exercises and self-assessment tools to help you make the right choices, it also includes real-life stories of successful career changers.

Traditional management structures, systems, and tools, intended to make the first factories of the industrial age efficient, are now obsolete. Applying them to knowledge-work has exactly the opposite effect, causing all kinds of breakdowns. This book explains why knowledge workers have to manage themselves and tells them how to do it.

Instructor Resources: Teaching tips, sample syllabus and a sample course schedule. Success isn't something you are born with--it is carefully cultivated and mastered. And a job, when it works well, can fit like a glove and provide immense personal and professional satisfaction. This book's 50 succinct lessons will guide students as they begin their careers in healthcare management and help them achieve success and professional fulfillment--whatever their role. Each of the 50 lessons outlines traits, behaviors, and skills needed to maximize strengths, master career success, and achieve the perfect job fit. White and Lindsey, in various academic and healthcare management roles, have provided career counseling for hundreds of students and early careerists. Each lesson concludes with helpful exercises that will prompt self-reflection and recommended resources for additional information. Written in a conversational, friendly style, the 50 lessons broadly cover three major areas: managing yourself, managing your job, and taking charge of your career. The 50 lessons are filled with bulleted lists and quick tips and address specific topics such as: Establishing a life vision and developing a personal brand Managing the first 90 days of a healthcare management position Mastering presentations through writing and speaking tips Building and supporting strong teams Developing a professional development plan Balancing life and work New graduates of master's programs and early careerists in the field will particularly benefit from this book, but readers at other points in their career will also find it useful.

In Take Charge of Your Mind, business entrepreneur and Oxford lecturer Paul Hannam and noted psychologist John Selby present well-researched and easily mastered "cognitive uplift" methods for consciously expanding your mental performance, personal power, and satisfaction at work. This easy-to-master Take Charge process enables you to wake up your mind and truly shine at work. By unleashing the remarkable power of your integrated mental, emotional, and intuitive capacity, you'll gain creative brilliance and inner confidence, successful customer bonding, and a new sense of well-being and fulfillment.

I have never taken a personal branding class before but this one today was so informative. A lot of the information I will take and use it in all aspects of my professional and personal life. I have also almost have my personal branding statement, which I am so excited about. Presenter and content were both fantastic. The exercises were thought-provoking and will definitely prove useful in many professional settings. Guisselle is very passionate about her knowledge. I really enjoyed her charisma and how she engages with the students. Very funny!!! These are just some of the comments and feedback Guisselle Nunez has received from attendees of her powerful 'Take Charge of Your Brand' workshop. And now, she's taken the same information she shares in these game-changing workshops, coupled with her 20+ years of marketing and communication experience and poured it into this book. Using the knowledge and experience included in these pages, readers will have exactly what is needed to help curate the perfect strategy and action plans to reach and
