In medieval Europe, there were many feudal territories ruled by nobles/lords that united into kingdoms headed by kings. Under feudalism, landowning nobles governed and protected the people in return for services, such as fighting in a noble's army or farming the land. The kingdoms of Europe were divided into thousands of feudal territories.

Early Medieval Europe 300,1050: A Guide for Studying and Teaching empowers students by providing them with the conceptual and methodological tools to investigate the period. Throughout the book, major research questions and historiographical debates are identified and guidance is given on how to engage with and evaluate key documentary sources as well as artistic and archaeological evidence. The book's aim is to engender confidence in creative and independent historical thought. This second edition has been fully revised and expanded and now includes coverage of both Islamic and Byzantine history, surveying and critically examining the often radically different scholarly interpretations relating to them. Also new to this edition is an extensively updated and closely integrated companion website, which has been carefully designed to provide practical guidance to teachers and students, offering a wealth of reference materials and aids to mastering the period, and lighting the way for further exploration of written and non-written sources. , Accessibly written and containing over 70 carefully selected maps and images, Early Medieval Europe 300,1050 is an essential resource for students studying this period for the first time, as well as an invaluable aid to university teachers devising and delivering courses and modules on the period.

The centuries following the collapse of the Roman Empire saw extraordinary change across Western Europe - in institutions, social structures, rural and urban life, religion, learning, scholarship and art. This innovative textbook provides students coming to the study of Early Medieval Europe for the first time with the conceptual and methodological tools to investigate the period for themselves. It identifies major research questions and historiographical debates and offers guidance on how to engage with and evaluate the major documentary sources and the evidence of art history and archaeology. Ideally structured to support courses and classes in Medieval European history, the book's features include: Over 50 carefully selected maps and illustrations accompanied by explanatory commentary Detailed guidance on further reading with research questions to aid understanding Timelines and maps to orientate the reader in each chapter An extensive companion website providing practical study guidance, reference materials and access to further primary sources Offering a road map to the rich written and non-written sources for this period, and the exciting recent scholarship, this book is an essential guide for any student wishing to gain a deeper level of understanding and greater confidence in creative and independent historical thought.

Studying Late Medieval History is an accessible introduction for undergraduate history students wishing to understand the major topics of late medieval history. Examining the period from 1300–1550, this introductory guide offers an overview of 250 years of transformation, which saw technology, borders and ruling dynasties across the continent change. The book focuses on ten key themes to explain what happened, who the important personalities were and the significance of these events in shaping medieval Europe. Each chapter is a thematic essay which looks at the central topics covered at undergraduate level including the Church, the monarchy, nobility, parliaments, justice, women, children, warfare, and chivalry. The chapters are supported by a detailed evaluation of the key events students need to know and a guide to further reading for each topic. Studying Late Medieval History will be essential reading for all those beginning their studies of the late medieval period.
