In human sexuality, kinkiness is the use of non-conventional sexual practices, concepts or fantasies. The term derives from the idea of a "bend" (cf. a "kink") in one's sexual behaviour, to contrast such behaviour with "straight" or "vanilla" sexual mores and proclivities. It is thus a colloquial term for non-normative sexual behaviour. The term "kink" has been claimed by some who practice

The key question at the heart of this book is

to what extent political activists in mainland China, Taiwan and Hong Kong have made progress in their quest to liberalise and democratise their respective polities. Taking a long historical perspective, the book compares and contrasts the political development trajectory in the three regions from the early 1970s--from the election-driven liberalisation in Taiwan from 1969, the Democracy Wall Movement in mainland China in 1978, and the top-down political reforms of Governor Patten in Hong Kong after 1992--until the present day. More specifically, it sets out the different

strategies and tactics political activists have taken, assesses the lessons activists have learned from both successes and failures and considers how these experiences have informed their struggles for democracy. Importantly, the book demonstrates that at the same time, throughout the period and earlier, the Chinese Communist Party has been making use of "sharp power" --penetrating the political and information environments in Western democracies to manipulate debate and suppress dissenters living both inside and outside China--in order to strengthen its domestic position. The book discusses the

nature of this sharp power, explores the rise of the security state within mainland China and examines the effectiveness of the approach, arguing that in Taiwan and Hong Kong the approach has been counterproductive, with civil society, campaigns for greater democracy and the flourishing of religion in part stimulated by the Chinese Communist Party's sharp power practices.

frenetic phases of the battle until the final objectives are taken on 5 September. This is the story, often told in the words of the men themselves, of the capture of the 'unattackable' Mont and the 'invincible' fortress town of Péronne, two of the great feats of Australian forces in the First World War. The Author places real men on the battlefield, describing their fears and their courage and their often violent deaths. The struggle for control of the battle, to site the guns, to bridge the Somme and maintain communications are portrayed in vivid detail. The story also offers a glimpse of the men's
