The Visual Guide to Second Grade uses bold infographics to present fascinating facts about sports, rain forests, volcanoes, cloud formation, and more. Infographics allow students to complete creative challenges while building math, writing, and data-collection skills. When information is presented visually, children are more likely to understand and remember it. The Visual Guide to Second Grade uses infographics to grab young learners' attention with an exciting visual learning technique. Infographics simplify complex information by highlighting key ideas and connections with colorful charts, pictures, and graphs. The perfect at-home resource, this cross-curricular workbook provides comprehension questions, writing prompts, and creative challenges to keep your child engaged in the learning process. Grade-specific and high-interest, the Visual Guide series offers a unique collection of infographics that teach language arts, math, social studies, and science. Your child will grow as a critical thinker, make strides toward learning independently; and improve skills with text, numbers, and data. A way of learning that appeals to today 's youth, the Visual Guide series focuses on building the 21st century skills that lead to school success.

Next Generation Science Standards identifies the science all K-12 students should know. These new standards are based on the National Research Council's A Framework for K-12 Science Education. The National Research Council, the National Science Teachers Association, the American Association for the Advancement of Science, and Achieve have partnered to create standards through a collaborative state-led process. The standards are rich in content and practice and arranged in a coherent manner across disciplines and grades to provide all students an internationally benchmarked science education. The print version of Next Generation Science Standards complements the nextgenscience.org website and: Provides an authoritative offline reference to the standards when creating lesson plans Arranged by grade level and by core discipline, making information quick and easy to find Printed in full color with a lay-flat spiral binding Allows for bookmarking, highlighting, and annotating

Supplement your science curriculum with 180 days of daily practice! This invaluable classroom resource provides teachers with weekly science units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze and evaluate scientific data and scenarios, improve their understanding of science and engineering practices, answer constructed-response questions, and increase their higher-order thinking skills. Each week covers a particular topic within one of three science strands: life science, physical science, and Earth and space science. Aligned to Next Generation Science Standards (NGSS) and state standards, this resource includes digital materials. Provide students with the skills they need to think like scientists with this essential resource!
