Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

The Strangers Book explores how various nineteenth-century African American writers radically reframed the terms of humanism by redefining what it meant to be a stranger. Rejecting the idea that humans have easy access to a common reserve of experiences and emotions, they countered the notion that a person can use a supposed knowledge of human nature to claim full understanding of any other person's life. Instead they posited that being a stranger, unknown and unknowable, was an essential part of the human condition. Affirming the unknown and unknowable differences between people, as individuals and in groups, laid the groundwork for an ethical and democratic society in which all persons could find a place. If everyone is a stranger, then no individual or class can lay claim to the characteristics that define who gets to be a human in political and public arenas. Lloyd Pratt focuses on nineteenth-century African American writing and publishing venues and practices such as the Colored National Convention movement and literary societies in Nantucket and New Orleans. Examining the writing of Frederick Douglass in tandem with that of the francophone free men of color who published the first anthology of African American poetry in 1845, he contends these authors were never interested in petitioning whites for sympathy or for recognition of their humanity. Instead, they presented a moral imperative to develop practices of stranger humanism in order to forge personal and political connections based on mutually acknowledged and always evolving differences.

Alone in the house with her infant son all day (and awake with him much of the night), she feels uneasy, adrift. She neglects her work, losing untold hours to her Brooklyn moms' Facebook group, her "influencer" sister's Instagram feed, and text messages with the best friend she never sees anymore. Enter Sam, a senior at the local women's college, whom Elisabeth hires to babysit. Sam is struggling to decide between the path she's always planned on and a romantic entanglement that threatens her ambition. She's worried about student loan debt and what the future holds. In short order, they grow close. But when Sam finds an unlikely kindred spirit in Elisabeth's father-in-law, the true differences between the women's lives become starkly revealed and a betrayal has devastating consequences.
