On November 28, 1973, the world's social elite gathered at the Palace of Versailles for an international fashion show. By the time the curtain came down on the evening's spectacle, history had been made and the industry had been forever transformed. This is that story. Conceived as a fund-raiser for the restoration of King Louis XIV's palace, in the late fall of 1973, five top American designers faced off against five top French designers in an over-the-top runway extravaganza. An audience filled with celebrities and international jet-setters, including Princess Grace of Monaco, the Duchess of Windsor, Paloma Picasso, and Andy Warhol, were treated to an opulent performance featuring Liza Minnelli, Josephine Baker, and Rudolph Nureyev. What they saw would forever alter the history of fashion. The Americans at the Battle of Versailles-- Oscar de la Renta, Bill Blass, Anne Klein, Halston, and Stephen Burrows -- showed their work against the five French designers considered the best in the world -- Yves Saint Laurent, Hubert de Givenchy, Pierre Cardin, Emanuel Ungaro, and Marc Bohan of Christian Dior. Plagued by in-fighting, outsized egos, shoestring budgets, and innumerable technical difficulties, the American contingent had little chance of meeting the European's exquisite and refined standards. But against all odds, the American energy and the domination by the fearless models (ten of whom, in a groundbreaking move, were African American) sent the audience reeling. By the end of the evening, the Americans had officially taken their place on the world's stage, prompting a major shift in the way race, gender, sexuality, and economics would be treated in fashion for decades to come. As the curtain came down on The Battle of Versailles, American fashion was born; no longer would the world look to Europe to determine the stylistic trends of the day, from here forward, American sensibility and taste would command the world's attention. Pulitzer-Prize winning fashion journalist Robin Givhan offers a lively and meticulously well-researched account of this unique event. The Battle of Versailles is a sharp, engaging cultural history; this intimate examination of a single moment shows us how the world of fashion as we know it came to be.

A first book by a Pulitzer Prize-winning fashion critic presents a vivid account of the 1973 runway event at Versailles that traces how then-emerging designers, including Oscar de la Renta and Anne Klein, helped establish America as a dominant force in international style.

Signed on June 28, 1919 between Germany and the principal Allied powers, the Treaty of Versailles formally ended World War I. Problematic from the very beginning, even its contemporaries saw the treaty as a mediocre compromise, creating a precarious order in Europe and abroad and destined to fall short of ensuring lasting peace. At the time, observers read the treaty through competing lenses: a desire for peace after five years of disastrous war, demands for vengeance against Germany, the uncertain future of colonialism, and, most alarmingly, the emerging threat of Bolshevism. A century after its signing, we can look back at how those developments evolved through the twentieth century, evaluating the treaty and its consequences with unprecedented depth of perspective. The author of several award-winning books, Michael S. Neiberg provides a lucid and authoritative account of the Treaty of Versailles, explaining the enormous challenges facing those who tried to put the world back together after the global destruction of the World War I. Rather than assessing winners and losers, this compelling book analyzes the many subtle factors that influenced the treaty and the dominant, at times ambiguous role of the "Big Four" leaders?Woodrow Wilson of the United States, David Lloyd George of Great Britain, Vittorio Emanuele Orlando of Italy, and Georges Cl menceau of France. The Treaty of Versailles was not solely responsible for the catastrophic war that crippled Europe and the world just two decades later, but it played a critical role. As Neiberg reminds us, to understand decolonization, World War II, the Cold War, and even the complex world we inhabit today, there is no better place to begin than with World War I and the treaty that tried, and perhaps failed, to end it.

A comprehensive biography of the late designer, Karl Lagerfeld, and his infamous rivalry with Yves Saint Laurent. In the 1970s, Paris fashion exploded like a champagne bottle left out in the sun. Amid sequins and longing, celebrities and aspirants flocked to the heart of chic, and Paris became a hothouse of revelry, intrigue, and searing ambition. At the center of it all were fashion's most beloved luminaries - Yves Saint Laurent, the reclusive enfant terrible, and Karl Lagerfeld, the flamboyant freelancer with a talent for reinvention - and they divided Paris into two fabulous halves. Their enduring rivalry is chronicled in this dazzling expos  of an era: of social ambitions, shared obsessions, and the mesmerizing quest for beauty. "Deliciously dramatic... The Beautiful Fall crackles with excitement."-New York Times Book Review "Fascinating." -New York Times "Addictive." -Philadelphia Inquirer "It's like US Weekly, 1970s style." -Gotham "A story constructed as exquisitely as a couture dress. . . . It moves stylishly forward, with frequent over-the-shoulder glances at some very dishy background." -Boston Globe

Two Roads to 1940 is a comparative study of the French and British air arms, from 1918 to 10 May 1940. Higham seeks the answer to the question "Why was the Arm e de l'Air defeated in June 1940 whereas the Royal Air Force won the Battle Over Britain in September?" To reach a conclusion, the structure, the men and mat riel, the government, and the economic infrastructure were analyzed. The story reveals that the French, dominated by the Arm e de l'Terre, was hypnotized by "1918"; in contrast, the independent RAF evolved in the interwar years into a sophisticated, scientifically based force, which got the Air Defence of Great Britain (1924-1936) ready, was supported by government practices and consistency, as well as the necessary technical support for Fighter Command (1936-). Thus in 1940 the RAF could meet the Luftwaffe challenge. But the RAF also suffered from three major errors; no Air Officer Commander-in-Chief to control all the air commands, the almost fatal miscalculations of the power of Bomber Command, and the Army Ordnance's refusal to develop the .50-caliber machine-gun instead of the .303. Serious historians and buffs should find the story salutary, as well as a detailed explanation of why air forces fail
