Without public involvement,  
environmental policies are  
doomed to fail. The workshop  
was preceded by a joint  
effort by the three editors  
to develop a framework for  
evaluating different models  
of public participation in

the environmental policy  
arena. During a preliminary  
review of the literature we  
made four major  
observations. These came to  
serve as the primary  
motivation for this book.  
First, the last decade has
