The University of Madras was established on 5th September 1857. The establishment of Madras University Public Petition initiated on dated 11-11-1839. The Govt. of India formulated a systematic educational policy for India in 1854. Madras University was organized in the model of London University.

Right from its formal introduction in India in 1835, through Thomas B. Macaulay’s Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

The Global Wordsworth charts the travels of William Wordsworth's poetry around the English-speaking world. But, as Katherine Bergren shows, Wordsworth's afterlives reveal more than his influence on other writers; his appearances in novels and essays from the antebellum U.S. to post-Apartheid South Africa change how we understand a poet we think we know. Bergren analyzes writers like Jamaica Kincaid, J. M. Coetzee, and Lydia Maria Child who plant Wordsworth in their own writing and bring him to life in places and times far from his own—and then record what happens. By working beyond narratives of British influence, Bergren highlights a more complex dynamic of international response, in which later writers engage Wordsworth in conversations about slavery and gardening, education and daffodils, landscapes and national belonging. His global reception—critical, appreciative, and ambivalent—inspires us to see that Wordsworth was concerned not just with local, English landscapes and people, but also with their changing place in a rapidly globalizing world. This study demonstrates that Wordsworth is not tangential but rather crucial to our understanding of Global Romanticism. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.
