A Course in Mathematical Statistics, Second Edition, contains enough material for a year-long course in probability and statistics for advanced undergraduate or first-year graduate students, or it can be used independently for a one-semester (or even one-quarter) course in probability alone. It bridges the gap between high and intermediate level texts so students

without a sophisticated mathematical background can assimilate a fairly broad spectrum of the theorems and results from mathematical statistics. The coverage is extensive, and consists of probability and distribution theory, and statistical inference. \* Contains 25% new material \* Includes the most complete coverage of sufficiency \* Transformation of Random Vectors \* Sufficiency / Completeness / Exponential Families \* Order Statistics \* Elements of Nonparametric Density Estimation \* Analysis of Variance (ANOVA) \* Regression Analysis \* Linear Models

Over much of the past century, the law governing third-party importation of non-counterfeit, genuine goods has been obscured by conceptual uncertainty. In recent years, the debate over the gray market has centered on the fundamental reasons for trademark protection, and has raised the possibility of conflict between the two traditionally recognized purposes of trademark law--protecting consumers from deception and protecting trademark owners from lost sales. Hiebert discusses the evolution of the universality and territoriality principles of trademark law, and develops a new understanding of the role of goodwill in resolving trademark infringement issues. Beginning with a review of the earliest days of trademark law, Hiebert traces the development of the twofold purpose and territoriality doctrines in the United States, and examines in detail the cases, statutes, and regulations governing parallel imports. Unlike other recent treatments of the subject, this work benefits from the availability of important archival materials, and devotes considerable attention to the nineteenth-century antecedents of modern parallel importation doctrine, and to the evolution of trademark doctrine within the broader context of American legal realism.

From USA Today bestselling author Kelly Rey comes a laugh-out-loud mystery that is so funny it should be a crime... Jamie Winter loathes her job as a secretary in the sleaziest law firm in New Jersey. Trouble is, someone else loathes the whole firm—enough to kill one of the partners, the two-timing, eleven-fingered king of lowbrow television commercial spots, Dougie Digits. Now, Jamie is being strong-armed into investigating by Dougie 's frosty widow, Hilary. The suspect list is long, including the firm 's bookish paralegal, embezzling bookkeeper, ambitious associate, and resentful senior partners. Add to that list a mélange of oddball clients with grudges of their own, and Jamie has her work cut out for her. With assists from her studly landlord and husband-hungry sister, Jamie uncovers enough dirt on her coworkers to launch a tabloid in her hunt to find the killer...before he or she strikes again! Jamie Winters Mysteries: Motion for Murder – book #1 Mistletoe & Misdemeanors– holiday short story Death of a Diva – book #2 Motion for Misfits (short story in the "Killer Beach Reads" collection) The Sassy Suspect – book #3 Verdicts & Vixens – book #4 A Playboy in Peril – book #5 "Move over Stephanie Plum—there's a new girl in town! Jamie Winters is smart, sassy, and laugh-out-loud hilarious. Mix one fun mystery, some fantastic romantic chemistry, and witty quips throughout for a sure-fire winner! Who knew a lawyer's office could be so funny?" ~ Gemma Halliday, New York Times bestselling author

On April 17, 1975, the Khmer Rouge entered Phnom Penh to open a new and appalling chapter in the story of the twentieth century. On that day, Pin Yathay was a qualified engineer in the Ministry of Public Works. Successful and highly educated, he had been critical of the corrupt Lon Nol regime and hoped that the Khmer Rouge would be the patriotic saviors of Cambodia. In *Stay Alive, My Son*, Pin Yathay provides an unforgettable testament of the horror that ensued and a gripping account of personal courage, sacrifice

and survival. Documenting the 27 months from the arrival of the Khmer Rouge in Phnom Penh to his escape into Thailand, Pin Yathay is a powerful and haunting memoir of Cambodia's killing fields. With seventeen members of his family, Pin Yathay were evacuated by the Khmer Rouge from Phnom Penh, taking with them whatever they might need for the three days before they would be allowed to return to their home. Instead, they were moved on from camp to camp, their possessions confiscated or abandoned. As days became weeks and weeks became months, they became the "New People," displaced urban dwellers compelled to live and work as peasants, their days were filled with forced manual labor and their survival dependent on ever more meager communal rations. The body count mounted, first as malnutrition bred rampant disease and then as the Khmer Rouge singled out the dissidents for sudden death in the darkness. Eventually, Pin Yathay's family was reduced to just himself, his wife, and their one remaining son, Nawath. Wracked with pain and disease, robbed of all they had owned, living on the very edge of dying, they faced a future of escalating horror. With Nawath too ill to travel, Pin Yathay and his wife, Any, had to make the heart-breaking decision whether to leave him to the care of a Cambodian hospital in order to make a desperate break for freedom. "Stay alive, my son," he tells Nawath before embarking on a nightmarish escape to the Thai border. First published in 1987, the Cornell edition of *Stay Alive, My Son* includes an updated preface and epilogue by Pin Yathay and a new foreword by David Chandler, a world-renowned historian of Cambodia, who attests to the continuing value and urgency of Pin Yathay's message.

The spellbinding conclusion to the brilliant fantasy series by the author of *The Mirador* and *Mélusine*. Exiled from *Mélusine* for the crime of heresy, the once powerful Cabaline wizard Felix Harrowgate and his half-brother Mildmay, former cat-burglar and assassin, journey to Corambis to face judgment from a ruling body of wizards. Corambis, however, is a land plagued by civil strife. Kay Brightmore, the Margrave of Rothmarlin, is part of an insurrection to restore the monarchy in the southern half of the country. In desperation, Kay and his rebels seek out the engine of Summerdown, an ancient magical device rumored to have terrible powers. Once the engine is awakened, only a powerful wizard can stop its awesome potential for destruction. Felix and Mildmay arrive just in time for their greatest challenge and ultimate destiny...

Glissant has written extensively in French about the colonial experience in the Caribbean. Britton (French, Aberdeen U., Scotland) situates Glissant within ongoing debates in postcolonial theory, making connections between his novels and theoretical work and the work of Frantz Fanon, Gayatri Spivak, Homi Bhabha, and Henry Louis Gates, Jr. Focusing on language and subjectivity, discussion moves between analysis of Glissant's theoretical work and detailed readings of his novels. Major themes central to his writing, such as the reappropriation of history, standard and vernacular language, and the colonial construction of the Other, are addressed. **KEY BENEFIT:** This new book is written in a conversational, accessible style, offering a great deal of examples. It gradually ascends in difficulty to help the student avoid sudden changes in difficulty. Discusses analysis from the start of the book, to avoid unnecessary discussion on real numbers beyond what is immediately needed. Includes simplified and meaningful proofs. Features Exercises and Problems at the end of each chapter as well as Questions at the end of each section with answers at the end of each chapter. Presents analysis in a unified way as the mathematics based on inequalities, estimations, and approximations. For

mathematicians.

“ An original American story of a tough, embattled media player with uncanny gifts for giving the public what they want. ” —Publishers Weekly In *The Godfather of Tabloid*, Jack Vitek explores the life and remarkable career of Generoso Pope Jr. and the founding of the most famous tabloid of all—the National Enquirer. Upon graduating from MIT, Pope worked briefly for the CIA until he purchased the New York Enquirer with dubious financial help from mob boss Frank Costello. Working tirelessly and cultivating a mix of American journalists (some of whom, surprisingly, were Pulitzer Prize winners) and buccaneering Brits from Fleet Street who would do anything to get a story, Pope changed the name, format, and content of the modest weekly newspaper until it resembled nothing America had ever seen before. Pope was a man of contradictions: he would fire someone for merely disagreeing with him in a meeting (once firing an editor in the middle of his birthday party), and yet he spent upwards of a million dollars a year to bring the world ’ s tallest Christmas tree to the Enquirer offices in Lantana, Florida, for the enjoyment of the local citizens. Driven, tyrannical, and ruthless in his pursuit of creating an empire, Pope changed the look and content of supermarket tabloid media, and the industry still bears his stamp. Grounded in interviews with many of Pope ’ s supporters, detractors, and associates, *The Godfather of Tabloid* is the first comprehensive biography of the man who created a genre and changed the world of publishing forever. “ An engaging saga of one man ’ s obsessive devotion to creating an entertaining alternative universe. ” —The Wall Street Journal
